Python Developer - Thirdsan
2018 - 2020
Kampala, Uganda

• Spearheaded the development and deployment of web applications, online systems, and software solutions.
• Led end-to-end development projects, from requirements gathering and system design to implementation and testing.
• Translated client requirements into functional web applications, delivering seamless user experiences.

• Conducted rigorous application testing and quality assurance, ensuring high-performance and secure software.
• Contributed to the design and development of dynamic user interfaces.
• Managed databases, optimizing data storage and retrieval for efficiency and scalability.
• Provided technical leadership and mentorship to junior developers, facilitating their growth.
• Acted as a Python instructor, sharing expertise and knowledge with junior developers and coaching aspiring programmers.

SKILLS

Python Instructor Role:
Python Fundamentals. Django and Flask, Pandas and NumPy, Matplotlib and Seaborn, Jupyter Notebook, streamlit, VS Code, PyCharm

Python Developer Role:
Django and Flask, HTML, CSS, and JavaScript, RESTful APIs, Database Management, Version Control (Git), Automated Testing, AWS, Heroku, or Cloud Platforms, Data Analysis Libraries

STRENGTHS

🕐 Time Management & Task Prioritization:

Demonstrates exceptional time management skills by effectively prioritizing essential tasks to prevent rushed work. Establishes and adheres to deadlines that ensure the timely accomplishment of project milestones.

Adaptability:

Recognizes that change is an inherent and non-personal aspect of any endeavor. Adopts a proactive approach by breaking projects into manageable parts, allowing for quick adjustments and troubleshooting in case of unexpected challenges.

Accountability:

Exemplifies accountability by taking ownership of mistakes and using them as valuable learning experiences. This commitment to learning from errors fosters continuous improvement and ensures that past mistakes are not repeated.
